

aSURE™ WFI Sampler

aSURE™ WFI Samplers are a simple solution for achieving a contaminant-free sample from a WFI use point. The assemblies come double bagged in an easy peel, low permeability, medical-grade pouch and are gamma irradiated to ensure microbial control. All assembly is conducted in a state-of-the-art ISO Class 7 cleanroom.

Demand the one-piece aSURE™ design for the cleanest hassle-free connection.

aSURE™ WFI samplers are manufactured from medical-grade polypropylene and Cellgyn™ (TPE) materials.

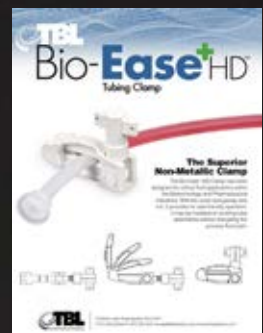

Note: Pictured with Bio-Ease clamp (Optional)

Biocompatibility:

All materials in contact with fluid path meet USP Class VI <88> requirements, FDA Title 21 CFR 177.1520, are Animal Derived Component Free (ADCF), and REACH Compliant
